A simple guide to your CEU and licensing requirements

Hi [First Name],

If you're a therapist, you need CEUs to keep your license. Not optional, required.

But every state has its own rules, and that's where things get confusing. So here's a clear guide to help you stay on track.

1 What CEUs Are

They're the credits you earn to renew your license. No CEUs, no renewal.

2 What Most States Require

Rules vary, but most boards ask for a set number of CEU hours, a mix of general and specialty credits, and proof that you completed them.

3 How Our Courses Help

Our courses count toward your license requirements, so you're learning and staying compliant at the same time.

Learn and stay licensed. One step, not two.

[Insert state specific links, deadlines, and approved provider details once we know the prospect's location.]

Need help figuring out exactly what your license requires?
